Talent You Need to be Competitive**

Build Your

TALENT PIPELINE

Success of a business depends on the availability of skilled employees to drive productivity and growth. Through Industry Collaboratives, we work with businesses in the region's top industries to identify workforce challenges, develop solutions, and ensure the industry has the pipeline of skilled talent to meet current and future demand.

Each solution is customized to industry needs but can include:

- Customized skills training for new candidates
- Apprenticeship development to reduce turnover and increase productivity of new employees
- Career mapping to easily move qualified employees into higher positions
- Industry awareness to increase potential candidate pools
